For the last couple of years I have been participating in and contributing to the Mind & Life Institute's Mapping the Mind project. The project is exploring the intersection of psychoanalysis and neuroscience. I am the founder and managing director of The Thinking Business Limited, which is a global training company specialising in business and management for individuals and companies including Disney, Microsoft, Hormel, UNICEF, World Health Organisation, Pfizer and the European Commission.

Mapping the Intersection: When Bringing Your Full Self…

Mapping the intersection of mind and computer June 15, 2010 / 6 Comments Well my inbox is filling up again with emails, as it did last month when I reported this story for The New York Times on pilot complacency and cockpit automation.

Mapping the Intersection: Knowing the Rules of the Road…

Over the past few weeks, we have tried to map the intersection of social justice and D&I work in a way that clarifies the process for you, explains the language and offers practical advice. Over the past three months, we have discussed the challenges, the obstacles and the opportunities that are available.

Mapping the Intersection: We're Playing the Long Game…

Mapping the Mind: The Intersection of Psychoanalysis and…

On a basic level, any commercial mapping company will offer this ability. These are the distinguishing factors from Google Maps—the ability to add your location data, images, and more. That's right, Google's search engine. We will take you step-by-step.

Mapping the Intersection of Two Cultures: Interactive…

This is a truly interactive documentary. In the making of the documentary, the filmmakers have employed various techniques to depict the story of the intersection of two cultures. Through their own experiences, they paint a picture of the cultural differences and similarities.

Mapping the Mind: 9780520266285: Medicine & Health Science…

Mapping the Mind is a book by Dr. Fred M. Levin, which explores the intersection of psychoanalysis and neuroscience. The book is divided into several parts, each focusing on a different aspect of the mind.

Mapping the Mind: 8601416935669: Medicine & Health Science…

At the intersection between Mind Mapping and Infographics, this amazing interactive mind map published by the Montréal Press is a great tool to explore the human mind. In this interactive mind map, you can zoom into different parts of the brain and discover many details thanks to a zoom button, moreover there are several clickable items that open a text box.
