The Age of Discontinuity: Guidelines to Our Changing Society. The closing decades of the twentieth century have been characterized as a period of disruption and discontinuity in which the structure and meaning of economy, polity, and society have been radically altered. In this volume Peter Drucker focuses with great clarity and perception on the forces of change in the economy—an economy that presently lacks policy, theory, and institutions; (3) a new sociopolitical reality of pluralistic, democratic decision-making; and (4) a new kind of organization, the learning organization.

The Age of Discontinuity: Guidelines to Our Changing Society. These are: (1) the explosion of new technologies resulting in major new industries; (2) the change from an informational to a world economy—an economy that presently lacks policy, theory, and institutions; (3) a new sociopolitical reality of pluralistic, democratic decision-making; and (4) a new kind of organization, the learning organization.
